

Artfully Yours... Framing A Collection

Are you a collector who's looking for a fresh and unique way to display your items? As custom framers, we can provide a frame that will showcase your collection in both a functional and an attractive way. Whether your passion is ceramic figurines, antique spoons, stamps, or baseball cards, a custom-made frame to house these items will further personalize your collection. The frame can even match your decor since our wide selection of

framing materials features a variety of styles, colors, textures, and finishes.

Come into the shop and talk to us. We'll tailor your display frame to the needs of your collection. For instance, shelves of virtually any size can be included. And we can also construct the frame with a hinged door to allow for the removal and addi-

tion of individual items. Whatever your collection, whatever your needs... we can build it for you! ■
