COMMEMORATING EVENTS WITH FAMILY PHOTOGRAPHS

Spring cleaning time is fast approaching, and you may find treasures that you never knew you had. Look around the house and you may find photos hidden in an attic, an old truck, or a shoebox. These photographs often give a glimpse into past family history and fond memories. What better way to preserve these memories than to frame these photographs?

Snapshots and memorabilia tell a story, and a nice way to remember that person or activity is to present it as a commemoration or perhaps as an award. Embellishing the frame design with both a photograph and added certificate of recognition makes an impressive presentation. The person you are honoring or the family you are presenting it to will have a memory to last a lifetime.

A nameplate with a description of the person's accomplishments adds to the design. Perhaps the person wrote something, and you want to use a quote from that under the photo. Our shop has the resources to create a beautiful custom-made mat and frame design just for you. Collages of photographs or magazine articles can also be incorporated with a small commemorative plaque for a unique arrangement.

We can frame your family photos using unique designs and subtle colors and shades to achieve just the right look for your home. Whether your furnishings are contemporary or antique, we have the right design for you. A wall of family history is a pleasure for you and a conversation piece for your visitors. ■

An unusually shaped photograph combined with an object and a story makes a memorable commemorative.

These are the most interesting and pertinent parts of a longer magazine article along with a photo of the person and cars that it was written about.
