

Framing Focus

MULTI-OPENING MATS TELL A STORY

Creating unique frame designs for multiple photographs is our specialty. Whether you've been on vacation, had a special occasion, or went into Grandma's attic, we will help you capture these moments in a beautiful frame design that will fit any home or office decor.

Photographs, memorabilia, and artwork often feature themes. We can style a great design using wonderful mats and interesting shapes for openings. Multi-level mats can add depth and dimension to your photographs. Mats of various textures and colors can also make the overall presentation pop out. Designs can be also drawn on the mats with lovely inks to give a one-of-a-kind look to your special memories.

Vacation photographs of your trip to the Grand Canyon might lend themselves to a sand-colored mat, for example, outlined in a brown mat with a beige mat underneath. Adding levels to a mat design can accent the different colors in your photos.

Photographs can be combined with other items to remind you of a special event or provide a home for a valuable collection. Highlighting your favorite baseball cards with a pennant accentuates the team's colors and adds color to the walls they are displayed on.

Medals and ribbons with a photo make a winning combination. Contrasting the ribbon colors and those in the photograph with different mat colors and textures offers an outstanding visual mixture. Is there a medal in an odd shape that would be a great focal point for your child's all-star photo and team picture? We can design a mat that makes you feel as if you can reach out and touch the award.

What about those multi-generational photographs from your attic? Think about arranging them chronologically or in different sizes with several layers of mats. Ordinary photographs are brought to life with this creative matting technique.

Our goal is make your memories last a lifetime, and framing for special occasions is our specialty. Stop by with your photographs, awards, and memories, and we will create a one-of-a-kind design just for you. ■

A collection of baseball cards gets star treatment. The top blue mat along with the mounts behind the cards and pennant accent the team colors. A stylish black and gold frame adds depth to the design.

This award-winning design uses a light wood frame with an inner frame of the same finish. The mounts behind the photo accent the colors of the horse. The opposite mat colors behind the ribbons complement one another.

This stunning yet simple design for a collection of vacation photos uses a double mat. Further enhancing the desert and mountain feel of this design is a frame with a cinnamon color finish.

Stylish Shadowboxes

One of the best ways you can save memorabilia and memories is in a beautifully designed shadowbox. Shadowboxes of all sizes and shapes can capture those special times and save them forever. Shadowboxes complement any room and furniture style.

Your wedding day will always be remembered with a uniquely designed shadowbox. We can take two photos and frame them within the shadowbox, while at the same time showcase the bridal bouquet and ringbearer's pillow. We will engrave your initials on the background mat to give you a precious memory that is beautiful enough to put over a mantel or hang on any wall.

Memorabilia of all kinds, whether it is for sports, birth-

days, professions, hobbies, or tributes, are often more dramatic when placed in shadowboxes. Maybe you have a collection of Beatles memorabilia that tells a story or a golf ball and other objects that tell of your hole-in-one. No matter what you have, we have the answer—a fabulous shadowbox. We have the best ideas and designs to help you save and savor those special moments. ■

This odd-shaped shadowbox, "Hole in One," features a real hole so the golf ball can enter and travel through the piece.
