

Framing Focus

GIVE OLD FRAME DESIGNS A NEW LIFE

Are you thinking of redecorating or refurbishing rooms in your home? Have you found treasures in your attic or basement or at a flea market that you would like to display but look too old or worn? Let us give your old frame designs new life. We can redesign and reframe old projects to fit with your new decor.

Matting and framing go hand-in-hand to create a fresh, new look. A plain mat and frame can be transformed into a beautiful display piece for any home or office. Styles change throughout the years and you can keep your art up-to-date as well. Mat layers and artistic designs and cuts can give your art a whole new feel. Adding color to mats with bolder widths and decorative corners and lines can yield dramatic results.

Expressive frames complement bold mat designs. Wood frames naturally complement botanicals and landscapes whereas gold tones can bring out the best in animation cells or photographs. Objects like records or tickets or entertainment memorabilia also lend themselves to interesting frame designs.

Refreshed and refurbished homes are always enhanced with fresh frame designs for the walls. We can frame anything and everything to fit in with your home decor. So stop by with your buried treasures and we will

turn them into wonderful one-of-a-kind frame designs. ■

A striking combination of mat colors and a gold frame give this gold record the star treatment.

This botanical moves beyond the ordinary with a beautiful combination of layered mats. The mahogany frame completes the elegant look.

An animation cell from The Lion King is brought to life with vivid colored mats and gold frame that makes the art stand out.

Redesigning Prints

As you are redecorating your home, you may find some artwork that has yellowed with age. The best solution to this discoloration problem is to beat the aging process by laminating them onto foamboard. With the addition of a beautiful frame they will take on a new life. Prints make great decorative accents and add texture and color to any decor.

Adding a new frame rejuvenates the

A contemporary set of Asian prints was laminated on foamboard with a new bamboo frame to complement the theme.

look of the print. We will help you choose a frame that enhances the art and follows through with its colors and theme. From antique to contemporary, every print can be made to look new with a redesigned format.

By re-inventing old frame designs you won't recognize the walls of your "new" home. We can help you by redesigning your old print packages to suit your home and your pocketbook. ■
